Profile

Motivated and detail-oriented Bachelor of Science in Information Technology graduate with one year and three months of professional hands-on experience in software development and system support. Proficient in Java, Web development, Python, and Microsoft SQL Integration Services with additional skills in SAP ABAP and SAP UI5. Well-versed in UI design, software testing, and debugging. Demonstrates strong ability to work independently and in team-oriented, fast-paced environments.

Career Objectives

I aim to become a proficient software tester. Coming from a background in SAP ABAP programming, I am now looking to transition into a testing role where I can build on my technical foundation, learn new tools and methodologies, and contribute effectively to a dynamic IT team. I am eager to gain broader experience in the field while continuously improving my skills and collaborating with others. In the long term, I aspire to grow into a Techno-Functional role, combining both technical knowledge and functional insight to deliver well-rounded solutions.

Education

Tertiary

STI College Global City

Bachelor of Science in Information Technology

Graduated: Cum Laude

Notable Project: Co-developer of the STI Global Paging System

2023-2024

Senior High School

Arellano University-Pasig

Information and Communications Technology

2018-2020

Junior High School

Taguig Integrated School

2014-2018

Non-Technical Skills

- Time Management
- Critical and Creative Thinking
- Teamwork and Leadership
- Emotional Intelligence
- Adaptability in any situation

Technical Skills

- Proficient in Microsoft Office applications including MS Word, Excel, PowerPoint, and Outlook, with strong skills in data entry, formatting, and reporting.
- Skilled in graphic and multimedia design tools, particularly Adobe Photoshop and Adobe Flash; capable of creating visual content and animations for various digital platforms.
- Knowledgeable in web development technologies such as HTML, CSS, and JavaScript, with hands-on experience in UI/UX design principles.
- Familiar with backend and enterprise development tools, including SAP ABAP and SAP Fiori for building and customizing SAP applications.
- Basic understanding of SAP UI5 and OData services integration for modern SAP web interfaces.
- Exposure to software development methodologies like Agile and Waterfall, and tools like Git and Visual Studio.
- Capable of conducting software testing, debugging, and system troubleshooting in both development and support environments.

Professional Experience

Business Architecture Associate (SAP ABAP Developer)

Accenture, Philippines

July 2024 – June 2025

- In my role as an SAP Developer at Accenture in the Philippines, I gained hands-on experience in SAP ABAP development, including creating and maintaining Report Programs, customizing Adobe Forms, and designing user interfaces using Screen Painter to meet client requirements.
- Developed and maintained custom programs based on functional specifications.
- Analyzed support tickets to identify and resolve program issues.
- Completed comprehensive training in SAP Fiori, applying acquired skills to develop and enhance user-friendly SAP applications aligned with modern UI/UX standards.
- Collaborated with cross-functional teams to deliver high-quality technical solutions supporting business needs to ensure successful project delivery.

OJT Intern

STI Global City, Philippines

February 2024 – June 2024

- Frontend Developer of the STI Global Paging System, enhancing communication flow and operational efficiency across departments.
- Led the design and implementation of the UI/UX for a dynamic, responsive website, utilizing HTML, CSS, JavaScript, and Bootstrap.
- Facilitated the deployment process using Bluehost, a third-party hosting service, demonstrating proficiency in setting up hosting environments, and managing server-side operations.
- Actively participated in code reviews and version controls, promoting code quality and collaboration within the team.
- Assisted in the management of project risks and issues.
- Authored comprehensive technical documentation, user guides, and development turnover documents to ensure smooth transitions and enhance user experience.
- Managed user account creation, role enrollment, and branch assigning for accounts in a local application. This involved troubleshooting and ensuring functionality for over 600+ user accounts.

OJT Intern (Accenture Technology Academy)

Accenture, Philippines

March 2024 – May 2024

- Completed an intensive training bootcamp focused on SAP ABAP (Advanced Business Application Programming) as part of the Accenture Technology Academy (ATA) OJT program.
- Gained foundational knowledge in ABAP syntax, data dictionary objects, modularization techniques, and standard programming practices in SAP.
- Developed a case study project involving both backend logic and frontend design using classical reports, selection screens, ALV (ABAP List Viewer), and interactive features.
- Practiced working with real SAP systems and scenarios to simulate enterprise-level tasks.
- Demonstrated strong grasp of ABAP concepts, which led to immediate absorption by Accenture upon completion of the program.
- After completing this OJT/bootcamp, I was hired by Accenture as a Business Architecture Associate, where I continued to support SAP development tasks such as requirements analysis, investigations, functional testing, and runbook documentation for SAP-related projects.

Skills

Programming	Java, C#, Python, SAP ABAP and SAP Fiori
Database Management	MS-SQL, PHPMyAdmin, and SQL Integration Services
Web Design & Development	HTML, CSS, Bootstrap, and JavaScript
IDE	Microsoft Visual Studio, Microsoft Visual Studio Code, and Android Studio
Application Development	Microsoft Power Platform, and Microsoft SharePoint
Interpersonal Skills	Written and Verbal Communication, Public Speaking & Presentation Skills, Adaptability & Problem-Solving

Trainings, Seminars, or Workshops Attended

Inclusive Date	Title of Training, Seminar, or Workshop
December 2024	SAP UI5 Basic Training (Accenture)
May 2024	Accenture Technology Academy (SAP ABAP)
January 2020	Web Page Design Workshop
October 2018	Artificial Intelligence
October 2018	Visual Assembly
